## BOSS RV-100 BURST

---

### Customer Benefits:

This product has been designed especially for -100°F Burst Protection. BOSS RV is formulated with propylene glycol as it is less toxic and therefore safer for people, pets, and wildlife if accidentally ingested.

### Properties:

- Safer for people and pets.
- Helps protect wildlife in the environment.
- Down-hole applications for equipment flushing of hoses and piping.
- Phosphate free.
- Burst protection to -100°F (-73°C)

**NOTE:** This product is NOT to be used in automotive or diesel engines radiator applications.
