

PRODUCT SPECIFICATION DATA SHEET

BOSS CONCRETE FORM OIL

Customer Benefits:

BOSS Concrete Form Oil is a product formulated to impart a separation film to all types of Concrete forms. This non-staining material consists of light mineral oil combined with a chemical agent to allow better than average cling tendencies to forms. The combination of ingredients physically repels both water and concrete. The product is designed to be non-toxic and does not require a WHMIS label.

PERFORMANCE SPECIFICATIONS:

Specific gravity	0.8406
Viscosity, cSt @ 40°C	4.97
Viscosity, cSt @ 100°C	1.75
Flash Point, °C	45
Pour Point, °C	-30

Applications:

For applications to forms prior to concrete placement to facilitate form removal concrete set. It is ready to use but can be diluted with mineral spirits or aliphatic solvents for spray application control. However, the applicator should avoid puddles, runs, and excessive spray drift. The product can be stored as well as applied below freezing temperatures when necessary. It can be used on forms that have been previously treated with form oil.
