

PRODUCT SPECIFICATION DATA SHEET

BOSS SYNTHETIC TRANSMISSION FLUID

Customer Benefits:

BOSS SYNTHETIC TRANSMISSION FLUID (STF) CD-50 is a full synthetic manual transmission lubricant for year round use in off and on highway equipment. This product meets the API Service category CD and is suitable for transmissions and gear cases where API GL-1 through GL-3 gear protection is required. This transmission fluid has a very low pour point and an inherently high viscosity index for excellent cold temperature flow-ability, as well as enhanced high temperature lubricating properties. This product is designed to meet the requirements for EATON and ROCKWELL transmissions.
