

BOSS HEMI-SYN Synthetic Gasoline Engine Oil

BOSS Lubricants' HEMI-SYN 0W-40 Synthetic Gasoline Engine Oil is a full synthetic motor oil derived from natural gas. With far fewer of the impurities inherent to crude oil, BOSS HEMI-SYN is race trusted and specifically designed to keep your engine closer to "factory clean" than the competitors.

BOSS HEMI-SYN is expressly formulated for the needs of Chrysler SRT engines where Chrysler MS-A0921 engine oil is required -- meeting or exceeding those MS-A0921 specs.

BOSS HEMI-SYN provides superior protection from friction, helps protect your engine from loss of power, excels in extreme temperatures, and is **designed for total protection.**
